As part of your Microsoft Volume Licensing agreement, you own up to 15 days of PRE-PAID consulting time through Software Assurance to support your planning and deployment needs through the programs listed below.

Planet Technologies, a Microsoft Gold Certified Partner, is uniquely qualified by Microsoft as an experienced, pre-approved partner to assist you with the program that best suits your organizations needs. Simply choose the program that's best for you and give us a call to get it scheduled.

### Desktop Deployment Planning Services (DDPS)

DDPS can help you ensure successful deployment of Microsoft Office or Windows software to increase usage, increase productivity, and lower costs. Planet will collaborate with you to create a comprehensive deployment plan that includes analysis, business case, process, and technical procedures. In the past year, Planet has supported over 3 million desktops.

### SharePoint Deployment Planning Services (SDPS)

SDPS is designed to help your organization plan an effective deployment of Microsoft Office SharePoint Server (MOSS). Planet will share best practices, analyze your organizational environment, and provide tools and services to help you optimize the effectiveness of MOSS core capabilities, help lower the cost of deployment, and help improve the productivity of your organization. Planet has delivered over 200 SharePoint expert design sessions within the past two years.

### Exchange Deployment Planning Services (EDPS)

EDPS is designed to help guide your organization through the deployment planning stages of a Microsoft Exchange implementation. Through a structured engagement, Planet will review new Microsoft Exchange product features, share best practices, analyze organizational requirements, provide hands-on deployment training, and help create comprehensive deployment and implementation plans. Planet's largest Exchange deployment was over one million users.

### Business Value Planning Services (BVPS)

BVPS helps your organization's business decision makers develop a plan to maximize the business value of the Microsoft Office system through structured, multi-day engagements. Planet will work with you to document, analyze, and design a plan that helps you unlock the potential of your existing investment, drive change, and improve your business processes.

Call Planet Technologies TODAY and we can walk you through the process to take advantage of this program.
